

A Delight For All Ages

Our production is designed with the attention span of the youngest child in mind but is sophisticated enough for the most discerning adult.

The Nutcracker offers the unique experience of a live ballet performance. This is a once in a lifetime opportunity for many in the audience.

DVDA's Educational Mission

"Delaware Valley Dance Academy seeks to share the magic and beauty of dance with students of all ages, 3 to 93. We are dedicated to preserving the art of dance through public performances, community outreach and lecture demonstrations. DVDA believes that the arts are an important part of our lives and we seek to provide a means for everyone, either as active participant or informed audience member, to be exposed to, and to develop a lifelong appreciation of dance."
